Haute Couture Interiors

HOMMÉS was born from a skilled merge of visionary identities, with distinctive perspectives of design, art, fashion, and cultures. Our brand's life motto is introducing an Haute Couture concept in the Interior Design industry.

In HOMMÉS we believe that a house must express the owner's soul, as clothes express the personality of the person who dresses them. With the clear intention of introducing a nouveau Haute Couture Interiors concept, presenting spaces with bold and unique identities, we have focused ourselves on the deep study of different interior trends throughout the 20th and the 20th century, paying special attention to how they can fit contemporary spaces. With that purpose in mind, we craft our very own identity with precision, challenging the boundaries of the interior into the limit.
